Springbourne

NEW look Springbourne is here! A fresh, new design with a creative, new shape in the glass range, makes Springbourne an excellent choice when you need the designer look.

The current trend towards healthier lifestyles has seen a boom in sales of bottled water.

- Springbourne 75cl still and sparkling and 330ml still and sparkling have a premium look and resemble a typical wine bottle shape. The vibrant water splash magnifies through from the back of the bottle giving a contemporary feel.
- The four new additions to Springbourne are perfect for dining occasions and table top, complementing events such as conferences, meetings, presentations, as well as restaurants and bars, hospitality trays and room service.
